Gözmer

Türkiye'nin gözlükçüsü

Gözmer

Üretim hayatına Summit markasıyla adımını atan firmamız daha sonra diğer tescilli Pulsar ve Ramani başta olmak üzere Dehills, Impiana, Asre markalarını da koleksiyonuna katarak ürün çeşitliliğini ve bununla birlikte renk çeşitliliğini de arttırmıştır. Tüm tüketici gruplarına hitap eden ürünlerimiz İsviçre TR 90 hammaddesinden üretilmektedir.

TR 90, hassas tıbbi cihazlardan optik sektörüne kadar pek çok alanda kullanılmakta olup, esnek, hafif, deform olmayan, kırılmaz bir yapıya sahiptir. Bu özelliklerin yanında en önemlisi yüzde yüz antibakteriyel ve antialerjik olup, alerjiye neden olan BPA, BİSFENOL ve buna benzer hiçbir katkı maddesini bulundurmamasıdır. Türkiye'nin doğusundan batısına kuzeyinden güneyine her bölgedeki Optik Mağazaları'na dağıtım yapan firmamız, yurtiçinde sağladığı bu başarıya paralel olarak, bizim için gurur kaynağı olan "Made in Turkey" etiketi ile bir çok ülkeye de ihracat yapmaktadır.

Son teknolojiye hakim, ARGE yapan, müşterilerimizin ihtiyaçlarına uygun hizmet verebilen, iyi eğitimli, yetenekli, kendini işine adamış çalışanlarımıza birlikte yerli üretim yapan firmamız, her koşulda müşteri memnuniyetine önem vermektedir ve kaliteden ödün vermeden her geçen gün başarularına yenilerini ekleyerek üretim hayatına hızla ve emin adımlarla devam etmektedir.

About Us

Gözmer Gözlük Industry and Trade Limited Company continues its production on optical frames and sunglasses with making use of technological opportunities and its innovation and experience of many years at our facilities in İstanbul.

Our company's production life has begun with our brand, Summit. Afterwards, it increased its product range and also color range, with adding its registered brands Pulsar, Ramani, Dehills, Impiana and Asre to its collection.

Our frames, addressing to all consumer groups, are produced with Switzerland TR 90 raw material. TR 90 raw material has a very wide area of usage, from delicate medical devices to optical equipments. It has a flexible, lightweight, nondeformable and unbreakable structure. In addition to these characteristics, most importantly it is 100% antibacterial and antiallergic. It doesn't contain any additives like BFA and BİSFENOL, which causes allergy.

Our company distributes from west to east, north to south, to optical shops of all regions in Turkey. At the same time, it exports to many countries with "Made in Turkey" label, which is a source of pride for us.

Our company, which is a domestic manufacturer, has a team that have a command of high technology, doing R&D, provide services suitable for customer's requirements, well educated, skilled and settled down to its work. Our company cares about customer satisfaction in all circumstances and continues its production life rapidly and confidently by adding new achievements, without compromising on quality.
